

Press Release:

Domino's Pizza offers Cashless for all home delivery transactions including Online and Telephone

Noida, December 13, 2016 - Domino's Pizza announced today a new cashless payment option for home delivery orders. With this service, when customers call to order and chose to pay with a cashless option, they would be immediately sent a link through SMS on their mobile phone. This link would take the customers to the payment gateway where they can choose to pay with a debit card, credit card, net banking or wallet.

Dev Amritesh, President & Chief Business Officer, Domino's Pizza India said, *"Post demonetization we have seen many customers choosing to order online, also consumers coming to our restaurants to dine in or carry out are able to pay with credit cards or wallets. However, there are many customers who still order with a phone. It is for these customers that we have introduced this cashless service. Many of our customers started requesting us to send a credit card machine to their homes or offices to swipe their cards, and this facility is serving the same need. With this, at Domino's you can now pay cashless whether you order online, order by telephone, or walk into a restaurant."*
