INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF JUBILANT FOODWORKS LANKA (PRIVATE) LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Jubilant Food Works Lanka (Private) Limited ("the Company"), which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2022, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements of the Code of Ethics issued by CA Sri Lanka ("Code of Ethics") that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As we have not been provided with other information, we have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Deloitte.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

As required by Section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as it appears from our examination, proper accounting records have been kept by the Company.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

1. Corporate information

1.1 General

Jubilant FoodWorks Lanka (Private) Limited, is a limited liability company incorporated and domiciled in Sri Lanka. The registered office of the Company is located at No. 164, Galle Road, Dehiwala, Sri Lanka.

1.2 Principal activities and nature of operations

During the year, the principal activities of the Company were to establish, carry on, manage, operate and franchise the business of manufacturing, selling, marketing and distributing fast food products and beverages.

1.3 Parent entity and ultimate parent entity

The Company's parent undertaking is Jubilant FoodWorks Limited. In the opinion of Directors, the Company's ultimate parent undertaking and controlling party is Jubilant Bhartia Group, which is incorporated in India.

1.4 Date of authorisation for issue

The Financial Statements of Jubilant FoodWorks Lanka (Private) Limited for the year ended 31 March 2022 were authorised for issue in accordance with a resolution of the board of directors 23 May 2022.

2. Basis of preparation and summary of significant accounting policies

2.1 Statement of compliance

The Financial Statements of Jubilant FoodWorks Lanka (Private) Limited has been prepared in accordance with Sri Lanka Accounting Standards (LKASs and SLFRSs) issued by the Institute of Chartered Accountants of Sri Lanka and in compliance with the Companies Act No. 07 of 2007.

2.2 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the defined benefit plan, which is measured at present value based on actuarial valuation.

All assets and liabilities are classified as current and non-current as per company's normal operating cycle of twelve months which is based on the nature of business of the Company. Current assets do not include elements which are not expected to be realised within one year and current liabilities do not include items which are due after one year, the period of one year being reckoned from the reporting date.

2.3 Going concern

The Company has continuously incurred losses since its inception. The Company's net assets amounting to Rs.698 Mn is less than half of the stated capital of the company as at 31 March 2022. However, the financial statements of the Company have been prepared on the basis of accounting principles applicable to a going concern. This going concern basis presumes that the company will continue to receive financial support from its parent company and re-phasing of intercompany trading debt payment. The Company is making progress in achieving its profitability level through focus on growing revenue by improving operational KPI's such as faster delivery and more investments on digital sales. At the same time efficient cost controls over food cost, manpower cost, discounts and re-negotiations on fixed cost such as rents focused.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.4 (a) Comparative information

The accounting policies adopted by the Company are consistent with those used in the previous financial year

(b) Functional and presentation currency

The functional currency of the company is Sri Lankan Rupees (Rs.). Transactions in foreign currencies are initially recorded in the functional currency using the spot rate at the date of the transaction. Foreign currency monetary items at the reporting date are translated using the closing rate. All exchange differences arising on settlements are recognized in profit or loss.

2.5 Summary of significant accounting policies

2.5.1

(a) Income tax

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Current taxes

Current income tax assets and liabilities for the current periods are measured at the amount expected to be recovered from or paid to the taxation authorities.

The provision for income tax is based on the elements of income and expenditure as reported in the financial statements and computed in accordance with the provisions of the Inland Revenue Act No. 24 of 2017 and the subsequent amendments thereto.

(b) Deferred taxation

Deferred tax is recognised using the balance sheet liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on the tax rates and tax laws that have been enacted or substantively enacted as at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, only when a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.2 Earnings per share

The company presents basic Earnings Per Share (EPS) based on profit or loss attributable to the ordinary shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

2.5.3 Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax except where the sales tax incurred on a purchase of assets or a service is not recoverable from the taxation authorities in which case the sales tax is recognised as a part of the cost of the asset or part of the expense items as applicable and receivable and payable is stated with the amount of sales tax included. The amount of sales tax recoverable and payable in respect of taxation authorities is included as a part of receivables and payables in the statement of financial position.

2.5.4 Inventories

Raw Materials, Stores Spares and Packing Materials, Goods Purchased for Resale and Material in Process valued at the lower of cost and net realizable value. The cost for this purpose has been computed on FIFO basis.

The cost of the inventory comprises of the cost incurred in bringing inventories to its present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

2.5.5 Cash and cash equivalents

Cash and cash equivalents are cash in hand and balances with banks.

For the purpose of the cash flow statement, cash and cash equivalents consist of cash in hand and deposits in saving accounts net of outstanding book overdrafts.

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effect's transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash and cash equivalents in the cash flow comprise cash at bank, cash/cheques in hand and short-term investments with an original maturity of three months or less.

2.5.6 Property, plant and equipment

2.5.6.1 Basis of recognition

All property, plant and equipment are initially recorded at cost. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor and any other costs directly attributable to bringing the assets to a working condition for their intended use.

2.5.6.2 Subsequent measurement

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are recognized in profit or loss in the period in which those are incurred.

All classes of assets included under property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.6.3 Depreciation

Depreciation is charged to profit or loss so as to write off the cost of assets less their residual values, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year-end, with the effect of any changes in such estimates accounted for prospectively.

The estimated useful lives of depreciable assets are as follows:

Fixed asset	Estimated useful life (in number of years)	Depreciation rate
Leasehold improvements	9 years or actual lease period, whichever is lower	11.66% or % based on actual lease period, whichever is lower
Plant and machinery	5 to 20	5% to 20%
Office equipment	2 to 10	10% to 50%
Furniture and fixtures	5 to 10	10% to 20%
Motor vehicles	6	16.67%

2.5.6.4 De-recognition

Property, plant and equipment is de-recognised on disposal or when no future economic benefits are expected from their use. Gains and losses on disposal of property, plant and equipment are determined by comparing proceeds with the carrying amount and are included in profit or loss.

2.5.6.5 Capital work-in-progress

Capital work in progress represents all amounts paid on work undertaken, and still in an unfinished state as at the end of the year and is carried at cost less any recognised impairment. Depreciation on such items commences when the assets are ready for their intended use.

2.5.7 Intangible assets

2.5.7.1 Basis of recognition

An intangible asset is recognised if it is probable that future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. Intangible assets include cost of computer software and licenses acquired by the Company and is stated at cost less accumulated amortisation and accumulated impairment losses.

2.5.7.2 Subsequent expenditure

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

2.5.7.3 Amortization

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

The estimated useful lives of the company's intangible assets are as follows:

Intangible asset	Estimated ((in number	Depreciation rate
Software Store opening fees	5 IM SASSOCIATES 5 * # 11, Castle Lane, Colombo - 04, Tel: 0115 444 400 MPTERED ACCOUNTANTS 10	20% 20%

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.7.4 De-recognition

An intangible asset is de-recognised on disposal or when no future economic benefits are expected from it. The gain or loss arising from de-recognition of such disposal is included in profit or loss when the item is derecognised.

2.5.8 Expenditure during construction period

Expenditure directly relating to construction activity of outlets is capitalized (net of income, if any). Indirect expenditure incurred during construction period is capitalized as part of the indirect construction cost to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure incurred during the construction period which is not related to construction activity nor is incidental thereto is charged to profit or loss.

2.5.9 Impairment of tangible and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

After impairment, if any depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss.

2.5.10 Financial assets- recognition and measurement

2.5.10.1 Initial recognition and measurement

All financial assets are initially recognized on the date that the company becomes a party to the contractual provisions of the instrument.

All financial instruments are measured initially at their fair value including transaction costs, except in the case of financial assets and financial liabilities recorded at fair value through profit or loss.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.10.2 Classification and subsequent measurement

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount of outstanding.

A financial asset is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial assets - Subsequent measurement and gains and losses

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.10.3 De-recognition of financial assets

The company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognizes its retained interest in the asset and an associated liability for the amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognize the financial asset and also recognizes the collateralized borrowing of the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss.

On derecognition of a financial asset other than in its entirety, the company allocates the previous carrying amount of the financial asset between the part it continues to recognize under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the sum of the consideration received for the part no longer recognized and any cumulative gain or loss allocated to it that had been recognized in other comprehensive income is recognized in profit or loss. A cumulative gain or loss that had been recognized and the part that is no longer recognized on the basis of the relative fair values to be recognized and the part that is no longer recognized on the basis of the relative fair values of those parts.

2.5.10.4 Identification, measurement and assessment of impairment

In relation to the impairment of financial assets, SLFRS 9 requires an expected credit loss model. The expected credit loss model requires the Company to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

Specifically, SLFRS 9 requires the Company to recognise a loss allowance for expected credit losses on:

- Debt investments measured subsequently at amortised cost;
- Trade receivables and contract assets; and
- Financial guarantee contracts to which the impairment requirements of SLFRS 9 apply.

SLFRS 9 requires the Company to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses (ECL) if the credit risk on that financial instrument has increased significantly since initial recognition, or if the financial instrument is a purchased or originated credit-impaired financial asset. However, if the credit risk on a financial instrument has not increased significantly since initial recognition (except for a purchased or originated credit-impaired financial asset), the Company will measure the loss allowance for that financial instrument at an amount equal to 12-months ECL. SLFRS 9 (5.5.15. b) the company uses simplified approach for measuring the loss allowance at an amount equal to lifetime ECL for trade receivables, contract assets and lease receivables

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.11 Financial liabilities

2.5.11.1 Initial recognition and measurement

The company classifies financial liabilities into financial liabilities at Fair Value through Profit or Loss (FVTPL) or other financial liabilities.

The company recognizes financial liabilities in the statement of financial position when the company becomes a party to the contractual provisions of the financial liability.

(i) Financial liability at FVTPL

Financial liabilities at FVTPL include financial liabilities held-for-trading or designated as such upon initial recognition. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss.

Upon initial recognition, transaction costs that are directly attributable to the acquisition are recognized in profit or loss as incurred. The criteria for designation of financial liabilities at FVTPL upon initial recognition are the same as those of financial assets at FVTPL.

(ii) Other financial liabilities

Other financial liabilities are initially measured at fair value less transaction cost that are directly attributable to the acquisition and subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on the issue and costs that are an integral part of the EIR.

2.5.11.2 De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

2.5.12 Provisions

Provisions are recognised when the company has a binding present obligation. This may be either legal because it derives from a contract, legislation or other operation of law, or constructive because the company created valid expectations on the part of third parties by accepting certain responsibilities. To record such an obligation it must be probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation. The amount recognised as a provision and the indicated time range of the outflow of economic benefits are the best estimate (most probable outcome) of the expenditure required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

2.5.13 Employee retirement benefits

a) Short term and other long term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amounts of the benefits expected to be paid in exchange for that service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amounts of the benefits to be paid in exchange for the related services.

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by the employees up to the reporting date.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

b) Defined benefit plan – gratuity

The Defined Benefit Obligation recognized in the statement of financial position represents the present value of the Defined Benefit Obligation at the reporting date estimated using the projected unit credit method. These benefits are not externally funded. Under the Payment of Gratuity Act No. 12 of 1983, the liability to an employee arises only on completion of five years of continued service. The company's obligations under the said Act is determined based on an actuarial valuation using the projected unit credit method carried out by a professional actuary.

Gains and losses through re-measurements of the defined benefit liability are recognized in other comprehensive income and not reclassified to profit and loss in subsequent periods.

c) Defined contribution plans – Employees' Provident Fund and Employees' Trust Fund

Defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

All employees of the Company are members of the Employees' Provident Fund and the Employees' Trust Fund, to which the Company contributes 12% and 3% respectively of such employees' basic or consolidated wage or salary.

2.5.14 Lease assets

(a) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

(b) Lease liabilities

At the commencement date of the lease, the company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the company uses its incremental borrowing rate at the lease commencement date.

2.5.15 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable net of trade discounts and sales taxes.

a) Sale of goods

The Company recognizes revenue from sale of food through Company's owned stores located in Sri Lanka and are recognized when the items are delivered to or carried out by customers. Customer's payments are generally due at the time of sale.

b) Other income

Other income mainly consists of interest income which is recognised on an accrual basis using the Effective Interest Rate (EIR) method. Gains and losses on the disposal of property, plant and equipment are recognized in profit or loss, at the point of disposal.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

2.5.16 Commitments and contingencies

All discernible risks are accounted for in determining the amount of all known liabilities. Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or the amount cannot be reliably measured. Contingent liabilities are not recognised in the statement of financial position, but are disclosed.

2.5.17 Significant accounting judgements Commitments and contingencies

The preparation of financial statements requires the application of certain critical accounting assumptions relating to the future. Further, it requires the management of the company to make judgments, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability in future periods. Hence, actual experience and results may differ from these judgments and estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

- Retirement benefit obligation

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Key assumptions used in determining the defined retirement benefit obligations are given in Note 16. Any changes in these assumptions will impact the carrying amount of defined benefit obligations

- Right- of –use assets

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate for similar borrowings.

- Deferred tax

Assumptions used for deferred tax asset are given in the note 7.3

Less: Brought forward tax losses	(4,566,262)	(2,649,765)
Taxable profit	NIL	NIL
Current tax at 24%	-	-
Balance income tax payable		_
Tax losses carried forward		
Tax losses brought forward	1,693,832,490	1,667,422,229
Loss incurred during the year (Note 7.1)	30,620,544	29,060,026
Loss set off against interest income	(4,566,262)	(2,649,765)
Tax losses carried forward	1,719,886,772	1,693,832,490
Deferred tax assets and liabilities relate to the following.		
The company has computed deferred tax at the rate of 24% in the	current year.	
Deferred tax liability		
Property, plant and equipment	34,573,125	31,229,522
	34,573,125	31,229,522
Deferred tax assets		
Defined benefit obligation	2,033,823	1,582,550
Re-measurement (loss) / gain on defined benefit plan	(520,560)	88,320
Tax losses	18,961,097	11,927,848
Right of use asset	- 14,098,765	17,630,804

Net deferred tax assets / (liability)

Assumption made in recognition of the deferred tax assets

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

34,573,125

31,229,522

As of 31 March 2022, there is a tax loss carried forward amounting to Rs. 1,657,820,997 (2021 - Rs 1,703,075,151) for which unregonized deferred tax assets on tax losses as at 31 March 2022 amounted to Rs. 397,877,039 (201/21 - Rs.399,187,439).

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

8. Earnings per share

- **8.1** Basic earnings/ (loss) per share is calculated by dividing the net profit/ (loss) for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year. The weighted average number of ordinary shares outstanding during the year and the previous year are adjusted for events that have changed the number of ordinary shares outstanding, without a corresponding change in the resources such as a bonus issue.
- 8.2 The following reflects the loss and share data used in the basic loss per share computations.

	2021/2022 Rs.	2020/2021 Rs.
Loss attributable to ordinary shareholders for basic earnings per share	(28,830,945)	(72,009,570)
Number of ordinary shares used as the denominator:	31.12.2022 Rs.	31.03.2021 Rs.
Weighted average number of ordinary shares in issue applicable to basic earnings/(loss) per share	244,785,656	218,343,054
Loss per share	(0.12)	(0.33)

On May 2020, The Institute of Chartered Accountants of Sri Lanka issued COVID-19-Related Rent Concessions - amendment to IFRS 16 Leases. The amendments provide relief to lessees from applying SLFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the COVID-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a COVID-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the COVID-19 related rent concession the same way it would account for the change under SLFRS 16, if the change were not a lease modification.

	At the end of the year	6,305,261	6,961,959
16.1	Expanse on defined herefit plan Cratuity		
10.1	Expense on defined benefit plan-Gratuity Current service cost	2,061,000	1,571,000
	Interest cost	527,000	457,000
	The amount recognized in profit or loss	2,588,000	2,028,000
	The amount recognized in profit of loss	2,388,000	2,028,000
	Net actuarial loss/ (gain)s recognized in other comprehensive income	(2,169,000)	368,000
		419,000	2,396,000

16.2 An actuarial valuation was carried out by an independent professional valuer, Willis Towers Watson Employee Benefits Actuaries LLP, on 31 March 2022, to ascertain the full provision applicable in terms of the Payment of Gratuity Act No. 12 of 1983, in respect of all employees of the Company as at 31 March 2022, from the commencement of employment.

16.3 The principal assumptions used for this purpose are as follows:

	31.03.2022	31.03.2021
Discount rate	15.20%	8.20%
Salary increment rate	10.00%	7.00%
Staff turnover rates		
Category A	7.00%	7.00%
Category B	20.00%	40.00%
Retirement age	58 years	58 years

16.4 Assumptions regarding the future mortality are based on the rates from the 2000-2002 Sri Lanka Life Table issued by the Department of Census and Statistics of Sri Lanka.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

16. Retirement benefit obligation (Contd.)

16.5 The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

	Discount rate		Future salary increment rate	
Sensitivity Level	Increase	Decrease	Increase	Decrease
	1%	1%	1%	1%
Impact on defined benefit				
obligation - 31.03.2021	(578,000)	680,000	673,000	(581,000)
Impact on defined benefit				
obligation - 31.03.2022	(404,000)	455,000	474,000	(427,000)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the statement of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis when compared to the prior year.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

21.2 Transactions with Key Management Personnel of the Company or its Parent

The Key Management Personnel of the Company are the members of its Board of Directors.

There have been no transactions with Key Management Personnel of the Company for the year ended 31 March 2022 except as discussed below :

	2021/2022 Rs.	2020/2021 Rs.
Short-term employee benefits	22,332,514	18,218,797

22. Events occurring after the reporting date

There have been no material events occurring after the date of reporting that require adjustments or disclosure in the financial statements.

Sri Lankan rupee witnessed a sharp depreciation against the US Dollar. The Company is exposed to foreign currency denominated transactions. As per exchange rates published by Central Bank of Sri Lanka exchange rate as of the end of the quarter and auditor's report date are as follows.

As of the end of the year		As of the Audit Report date		
	31-Mar-22			
Exchange rate	1 USD = LKR 299	1 USD = LKR 360		

23. Going concern

The Company has continuously incurred losses since its inception. The Company's net assets amounting to Rs. 698 Mn is less than half the stated capital of the company as at 31 March 2022. However, the financial statements of the Company has been prepared on the basis of accounting principles applicable to going concern. This going concern basis presumes that the company will continue to receive financial support from its parent company. The company is making progress in achieving its profitability level through focus on growing revenue by improving operational KPI's such as faster delivery and more investments on digital sales. At the same time efficient cost controls over food cost, manpower cost, discounts and re-negotiations on fixed cost such as rents focused.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

		31.03.2022 Rs.	31.03.2021 Rs.
24.	Financial instruments		
24.1	Categories of financial instruments		
	Financial assets		
	Cash and cash equivalents	109,981,597	31,678,334
	Receivable	49,171,640	35,422,324
	Financial liabilities		
	Related party payable	85,808,447	2,173,411
	Lease liability	380,486,325	293,018,169
	Other payable	155,033,223	86,034,319

Carrying values of financial assets and liabilities that have a short term maturity such as receivables, trade and other payables, and cash and cash equivalents are reasonable approximation of their fair value. Therefore, a fair value hierarchy is not applicable.

24.2 Financial risk management objectives and policies

Financial instruments held by the company, principally comprise of cash, short term deposits, receivables, trade and other payables and book overdraft. The main purpose of these financial instruments is to manage the operating, investing and financing activities of the company.

Financial risk management of the company is carried out based on guidelines established by the parent company which comes under the purview of the Board of Directors of the company and group.

The company identifies, evaluates and mitigates financial risk in close co-operation with the Group's senior management. The operating company provides guidelines for overall risk management, as well, covering specific areas such as credit risk, interest rate risk and foreign currency risk.

The company has established guidelines for risk controlling procedures and for the use of financial instruments, including a clear segregation of duties with regard to financial activities, settlement, accounting and related controlling. The guidelines upon which the company's risk management processes are based are designed to identify and analyze these risks throughout the company, to set appropriate risk limits and controls and to monitor the risks by means of reliable and up-to-date administrative and information systems. The guidelines and systems are regularly reviewed and adjusted to changes in markets and products. The company manages and monitors these risks primarily through its operating and financing activities.

24.3 Credit risk

Credit risk is the risk that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

With respect to credit risk arising from the other financial assets of the company, such as cash and cash equivalents, the company's exposure to credit risk arises from default of the counterparty. The company manages its operations to avoid any excessive concentration of counterparty risk and the company takes all reasonable steps to ensure that the counterparties fulfil their obligations.

NOTES TO THE FINANCIAL STATEMENTS Year ended 31 March 2022

24.3 Credit risk (Contd...)

The maximum exposure to credit risk at reporting date

	31.03.2022	31.03.2021	
	Rs.	Rs.	
Cash and cash equivalents (Note 15.1)	109,981,597	31,678,334	
Other receivables (Note 7)	49,171,640	35,422,324	
	159,153,237	67,100,658	

24.4 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The company monitors its risk to a shortage of funds using a daily cash management process. This process considers the maturity of both the company's financial investments and financial assets and projected cash flows from operations.

The company's objective is to maintain a balance between continuity of funding and flexibility through the use of multiple sources of funding including bank loans and overdrafts.

24.5 Market risk

Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate due to the changes in market prices. Mainly the changes in market prices, such as foreign exchange rates and interest rates will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. This is not applicable to the company as the company is not having any loans and borrowings.

b) Foreign currency risk

The foreign currency risk is the risk that the fair value or future cash flows of a financial instrument fluctuating due to changes in foreign exchange rates. The Company is exposed to foreign currency risk on purchases denominated in currencies other than the functional currency of the Company. The currency giving rise to this risk is primarily US Dollars.
