

GII invests ₹50 crore in I-India Family Mart

NEW DELHI

Value retail chain startup I-India Family Mart raised ₹50 crore as a part of its Series B round of funding from Dubai-based financial services firm Gulf Islamic Investments (GI). The Gurugram-based company, which is also backed by Carpediem Capital, will use the fresh funds to double its store count, organically and through acquisitions. "We are excited to raise a fresh funding round from GII which will significantly boost our expansion plans, strengthen our retail presence and drive growth trajectory of the group," said Jay Prakash Shukla, chief executive officer at I-India Family Mart. I-India Family Mart, operated by Nysaa Retail Pvt. Ltd, offers fashion apparels, lifestyle products, and general merchandise through more than 100 stores. "We love the group's focus on value retail and their ability to reach and cater to the Indian semi-urban areas. The group is on path to expand its footprint in new towns and semi-urban areas which resonates with India's growth story coming from tier-2 and tier-3 cities," said Pankaj Gupta and Mohammed Alhassan, co-founders at GII.

Inside IndiaMART's \$100 mn bet on nine startups in FY22

It looks to expand horizontally at a time when competition in B2B e-commerce is heating up

IndiaMART InterMESH Ltd, one of India's oldest internet firms, has been actively investing in startups since its listing in 2019. In this fiscal year 2021-22 alone, the business-to-business (B2B) marketplace has invested over \$100 million across nine companies. One of the deals included a 100% acquisition of accounting software company Busy Infotech Pvt. Ltd for ₹500 crore in its biggest deal so far. Noida-based IndiaMART, a beneficiary of venture capital and private equity investors like Amadeus Capital and WestBridge Capital before it went public, has made 11 investments worth over ₹950 crore since its listing. "After we got listed in July 2019, we thought of expanding the ecosystem of IndiaMART," Dinesh Agarwal, co-founder and chief executive officer, IndiaMART told VCCircle in a virtual interaction. A closer look at the company's 11 investments shows that it is looking to expand horizontally at a time when competition in the online B2B e-commerce space is heating up from new-age technology companies such as Udaan, Zetwerk, and Moglix among others, which have pocketed significant venture funding over the last three years and are fast expanding in the country.

The startup play

The firm has made 11 investments worth over ₹950 crore since its listing in 2019.

Company	Amount (₹ crore)	Holding (in %)
Busy	500	100.0
IB Monotaro	104.2	26.0
Vyapar	92.8	27.0
Fleetsx	91.4	16.5
MIXchange	32.4	7.7
Aerchain	26	26.2
Mobisy	20	16.0
Shipway	18.2	26.0
EasyEcom	13.4	26.0
Super Procure	10.4	25.0
Legistify	8.8	11.3

However, Agarwal noted that IndiaMART is different from the new-age companies and is making investments in startups, not because of competition from them. "I'm not diversifying because I am facing competition there. I'm simply saying that because I generate a good amount of cash, capital allocation is one important aspect that one should always be looking at," he added. Agarwal said IndiaMART's investments have primarily been in companies catering to three sectors: accounting and finance, marketing, and logistics that provide business enablement solutions. As of now, the accounting space has cornered the biggest share of IndiaMART's investments at over ₹600

crore across three firms. In September 2019, the company picked up a 26% stake in Simply Vyapar Pvt. Ltd, marking its first bet in the accounting space. Vyapar offers a GST (goods and services tax) billing, accounting, and inventory management product for small businesses allowing them to digitize their business operations and claims to have over 100,000 paying customers for its product. In January this year, IndiaMART made a follow-on investment in the company. It currently holds a 27% stake in Vyapar and has so far invested ₹92.75 crore in it. "Ever since I know computers, the first and foremost use of it has been accounting for businesses. So that's the first need of every business. In 2015-16 when the change happened from the desktop computer to the mobile computer or mobile smartphones, that's when I was looking for a company that is more mobile-friendly on accounting and that's why I invested in Vyapar," said Agarwal. IndiaMART made its second accounting bet on EasyEcom, a platform that offers ready integrations with major e-commerce platforms such as Flipkart and Amazon, web storefront providers such as Shopify, Zepo, and StoreHippo, and logistics providers such as Delhivery and Blue Dart. IndiaMART invested ₹13.35 crore for a 26% stake in EasyEcom. The company made its biggest bet in the accounting space in January this year by acquiring a 100% stake in Busy Infotech Pvt. Ltd for ₹500 crore. Busy, founded in 1997, offers an accounting software platform. "This (the acquisitions) expands our ecosystem. Not everybody today wants an online marketing lead chain like IndiaMART, but everybody wants some kind of accounting solution, and that expands our base," Agarwal added. Agarwal further said he was confident of these investments helping IndiaMART acquire more customers going forward. Other than accounting, IndiaMART has invested heavily in logistics companies, by making investments worth ₹154.85 crore in as many as five companies to date.
